

CONSTRUCTION UPDATE

TRAFFIC SWITCH

AZ Berman Drive, Mitchells Plain

The City of Cape Town is preparing for upcoming changes along AZ Berman Drive, from Nduli to Highlands Drive. Two important traffic changes will take place in early December as construction progresses.

These adjustments form part of reopening traffic lanes that were previously closed, and restoring traffic flow through the area.

Traffic Split: 3 December 2025:

- The City will introduce a traffic split between Nduli Drive and Sesame Street.
- Traffic in both directions will travel on separate lanes while the construction team work in the centre of the road.

Highlands Drive: Full Reopening - 5 December 2025

- Highlands Drive will reopen to traffic in both directions.
- This reinstates normal movement in the area after earlier closures needed for construction.

What to expect

- Traffic will be guided using cones, barriers and road markings.
- Motorists should drive cautiously through the work area.
- Work schedules may shift if weather or site conditions require changes.
- Clear signage and barriers will guide motorists through the area.
- Access to all homes and businesses will remain open, and any changes to this will be communicated in advance.
